

## 3 Fast Privacy Compliance Fixes

Staying compliant with privacy regulations like GDPR and DSGVO doesn't have to be complicated. Here are three quick changes you can implement to enhance your website's privacy compliance:

### 1. Embed Blocker: Manage Third-Party Content

The SiteOrigin Premium [Embed Blocker](#) Addon allows you to control embeds from popular platforms like YouTube, Vimeo, Twitter, and more. This tool helps you manage privacy compliance for embedded content:

- Activate the Embed Blocker Addon at [SiteOrigin](#) → [Premium Addons](#) .
- Choose which networks or sites to block.
- Customize your consent message and button.
- Visitors must provide explicit consent before viewing blocked embeds.

Key features include:

- Toggle blocking for individual sites.
- Target iFrames, blockquotes, or script embeds.
- Design consent messages using the WYSIWYG editor or SiteOrigin's Layout Builder.
- Customize button styling and attributes.
- Use dynamic placeholders for adaptive consent messages.

Site	URLs	Status	Actions
Google Maps Embed	maps.google.com	✓	- # x
Facebook iFrame	facebook.com	✓	- # x
Facebook JavaScript SDK	connect.facebook.net	✓	- # x
Instagram	instagram.com	✓	- # x
Reddit	reddit.com	✓	- # x
SoundCloud	w.soundcloud.com	✓	- # x
